

Ensuring Social Distancing During COVID-19

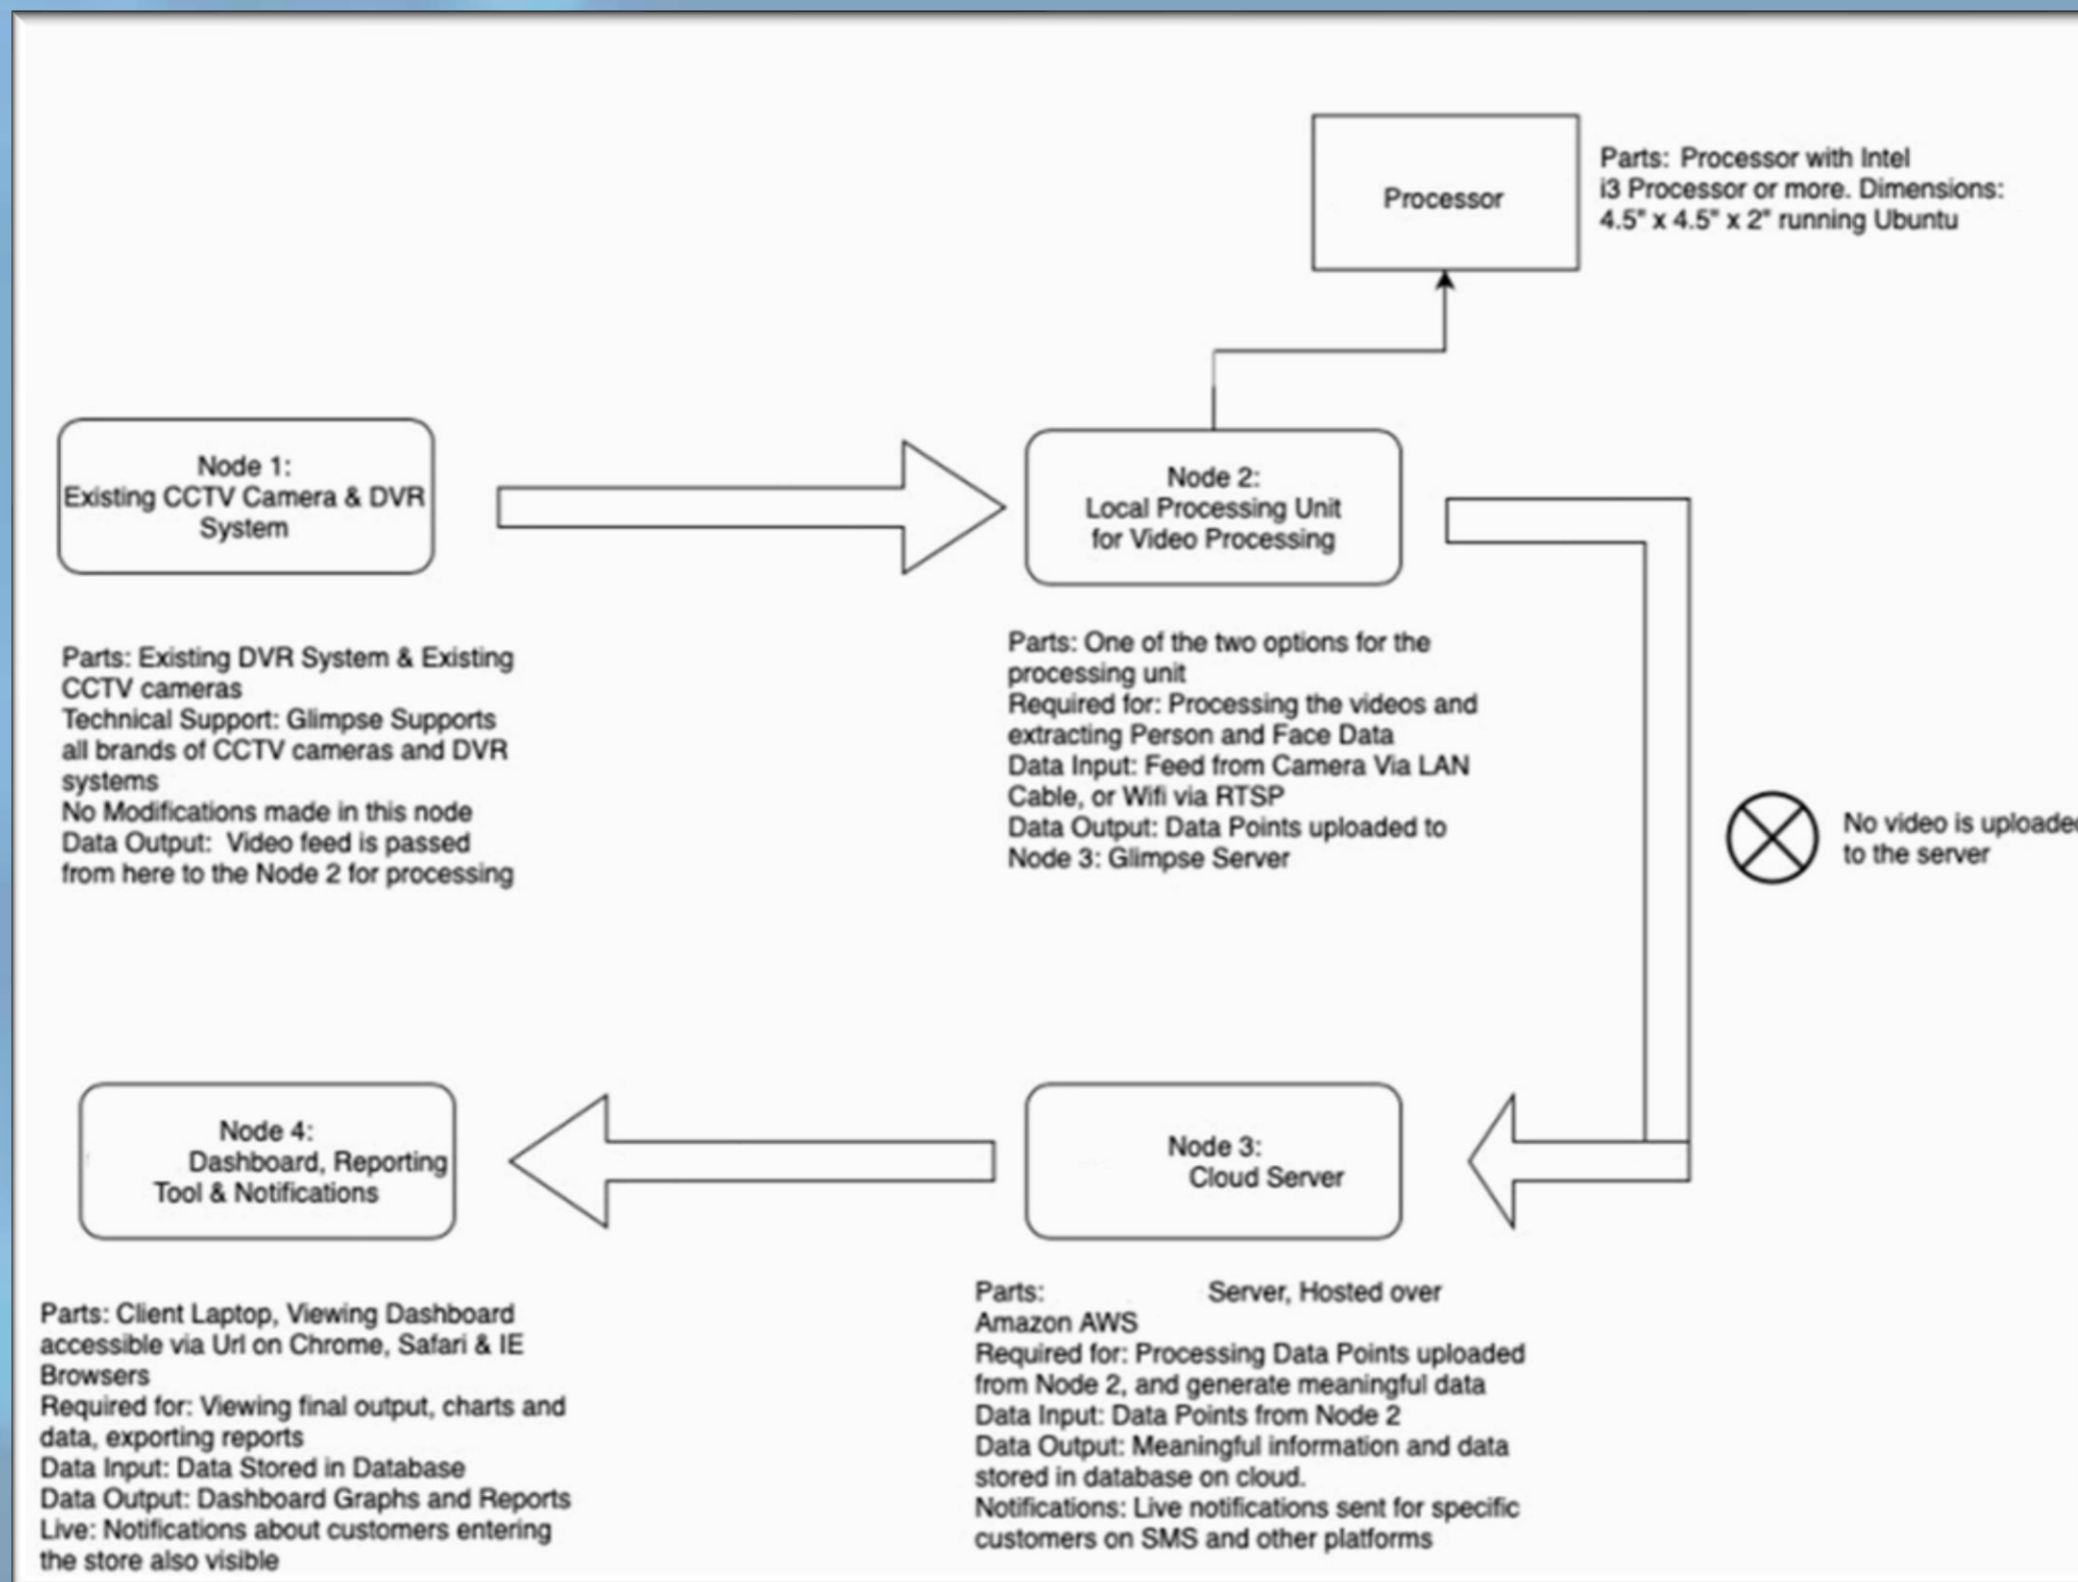

AI Analytics Solution

- AI based solution integrated with CCTV system to analyze the occupancy analysis, social distancing, mask usage and sanitizing frequencies
- Can be integrated with any CCTV systems
- Ready to use solution with real time alerts on violations or rules
- Triggers with photo capture can be made based on the violations

Solution features & benefits

- Ensuring Social Distancing
- Mask Detection
- Occupancy Monitoring
- Periodic Cleaning
- No video uploaded (privacy & security ensured)
- 100% data processed on premise
- Access control per module
- AES-256 encryption of all data

Solution Architecture

The new technologies are here

Build the future

Thank you
